ARBETSGRUPPEN FÖR UFOLOGI

IN ALL THE HISTORY OF THIS MAGAZINE
WE HAVE NEVER ATTEMPTED TO GO ON TO
A MONTHLY BASIS, NEITHER PUBLISH IN
THIS FORMAT, AND ON THE FRONT PAGE.

This is being arranged to show that
something different is in the wind
and will be occurring regularly, up
until we cease publication in Dec-
ember 1979.

I do so hope that we can contain
ALL the articles and mystical, yet
scientific data in all 12 issues
I do HOPE to get out, and therefore
clear out my entire stock of infor-
mation on ALL things since 1957.

I hope this will be as rewarding
to the readers as it will be to
myself for the grand finale of CNK
towards the end of 1979.

May The Energies of the cosmos be
with you.

ENTERTAINED.

INTRODUCTION
COSMOLOGY IS THE SCIENCE
OF THE UNIVERSE; A TREAT-
ISE ON THE STRUCTURE AND
PARTS OF THE SYSTEM OF
CREATION. OUR TITLE WAS
FORMULATED TO FIT IN ALL
THE COSMOLOGICAL EVENTS
ON EARTH AND IN SPACE
OTHER DATA:

CNK, for short, was found-
ed in 1972 by Edward Harris
and this is our 7th year of
production.

COPYRIGHT: Since this is
an amateur production, we
'borrow' others material,
BUT, we do advertise the
source, and therefore is
beneficial to the copy-
right holder. However,
where we cannot trace the
item to its source, the
editor offers apologies,
should any rights be inad-
vertently infringed.
CNK would also like the
same curtesy shown to us
by others who use our
material. Thank You.

EDITORIAL

REGULAR readers, shops, etc.,
will be wondering what on earth
is happening to this magazine,
and also letters not answered.
The answers are that I have been
on a government course at a
college, and time in CNK produc-
tion has virtually stopped. Also
there may be a slim chance of us
moving address sometime this ye-
ar, this depends on a third
party, yet to tell us so.

LETTERS

We apologise also for
not answering mail, also
to advertisers who have
paid for adverts to be
put in. This will be dealt
with in due course.

MONTHLY

CNK is now going MONTHLY,
and we will be SMALLER
in pages. This is to allow
me to get it out more rapid-
ly, and reducing the cost
by post. It is better this
way, than the reader having
to wait 6 months for each
non-scheduled issue.

CLOSING DOWN(?)

DEPENDING on what happens
towards 1980, CNK will
close down and cease pub-
lishing in December 1979.
This is so I can re-asses
the entire situation regards
printing equipment, the UFO
enigma itself and other fact-
ors. CNK MIGHT make a re-app-
earance in 1981. Meanwhile,
Happy New year. Edward Harris

IN BRIEF

CNM, due to its start in the new smaller format, will, over
the next few months develop into a magazine with a greater
circulation topping 1,000. Everyone will get a copy that has
written to me, sometime this year. CNK will go out, I hope in
a burst of colour-as we came in. But this issue, to start the
ball rolling, may or may not have any adverts or photos, although
I owe most people some. IF however you have writted and have
received no reply, then, like a telephone, I have been engaged
or lost your address, please write again. BUT please note, after
December 1979, please do not send in any more of anything, and
send it, to another UFO type periodical which can give you
credit for it when we cease. I do so however thank each and eve-
ry one of you, for the enjoyment you have brought me, the sheer
encouragement and research in sending in your letters, I have
always enjoyed communication with people world wide, despite
my attempt to learn your languages-hilarious as it may be, when
you try to read it. ALL OF YOU will be forever in my thoughts
as I close the door on this era of UFOLOGY and COSMOLOGY, and
while closed down, I'm wishing, hoping and praying, that one
day the extraterrestrials WILL make the kind of contact that
we all wish. for. The kind of contact they are making now,
only makes sense to themselves. It has always baffled many
researcher as to WHY UFOs act they way they do, and as we have
only a human brain we cannot see ourselves except through
the minds of ourselves, then how the extraterrestrials view us
is entirely beyond our comprehension.

Sometime ago, while contemplating CNKs demise, I scibbled these
following words down. Therefore, I am going to present them to
you as an article. I very rarely write articles for my own
magazine, so here goes, a rare treat indeed-perhaps:

THE SITUATION IN UFOLOGY (October 1978)

IT ALL BOILS DOWN TO ONE THING, we CANNOT do ANYTHING about
FLYING SAUCERS. This is one reason why magazines on the subject
start up, and fold up almost daily. Granted, data keeps pouring
in like the sightings themselves, but its ELUSIVE. Soon we will
have WAREHOUSES full of UFO data BUT NO UFO ITSELF TO STACK UP
THE WAREHOUS WITH ITSELF! To repeat that, what we really want
is not the paper data, but the UFO ITSELF-right?
CNK finds itself in this situation, therefore a close-down and
re-assessment must take place. All the investigations, ALL the

research, all the government departments world-wide, i.e.: The police, FBI, CIA, CID, SCOTLAND YARD, M.O.D. KGB etc., are POWERLESS to do anything about UFOs. THAT IS BECAUSE NOTHING CAN BE DONE by any government on earth, despite the huge resources at their fingertips. Because of this situation, some governments, not France however, would say rather they didn't exist, because, a government which can't control the UFOs, like they do the people, are really screwed up about them. UFOs have shown us their superiority many many times. WE JUST CAN'T GET TO GRIPS WITH THEM, and this leads all kinds of people to say THEY DON'T EXIST, even if they know that they DO! Some of these people are astronomers. Mr. Fred⁺Sculthorp once said to me in the 1950s that:

"We are like frogs, trapped down a well, and because we can't get out of it—we think it is everything." That goes for those who know extraterrestrials exist but would prefer to stick their heads in the sand and hope that they will go away. Not because they WANT them to go away, but maybe out of sheer frustration in having to deal with something irksome, intangible, which like a will o' the wisp, they can't grab out of the sky with their bare hands and say LOOK! HERE IT IS?

Likewise, this frustrating situation has vent itself on many other leading pioneers into ufology, like writer Gene Duplantier, of Ontario Canada, who aired the same words of: "Like walking down a long tunnel with no end in sight". His famous magazine 'Saucers Space & Science' closed up after almost a decade.

We can speculate until the end of time about Flying objects in the sky, we will not get that real answer until THEY are ready. Why the UFO runs from man—yet snatches samples of humanity for study, is unanswerable, despite the people involved and the intricate stories they tell of the experience.

I therefore believe ufologists are pouring money and their talents down the drain, if after 10 years they are no nearer than the first contact in the 1940's.

The only hope for us contacting the UFO lies within us to update our technology—build space craft and be on their level—go out and meet them on their home ground, if necessary. If they won't come to us, we will have to go to them. That I think may have to be the final answer, in solving this forever perplexing enigma. The power to do this lies in us all to make peace NOT WAR. Turn WAR hardware into fruitful space exploration now and forever.

UNIDENTIFIED FLYING OBJECTS AND EXTRATERRESTRIAL BEINGS
DEBATED IN THE HOUSE OF LORDS, January 18th 1979.

SPEARHEADING THE MOVEMENT TOWARDS RECOGNITION OF THE UFO IN
ENGLAND WAS WRITER AND LORD OF CLANCARTY, BRINSLEY LE POER
TRENCH.

It occurred on January 18th 1979, and is unique in this country for such a debate to ever have taken place at all. Lord Clancarty put forward the motion to:

"TO CALL ATTENTION TO THE INCREASING NUMBER OF SIGHTINGS AND LANDINGS ON A WORLDWIDE SCALE OF UNIDENTIFIED FLYING OBJECTS (UFOs) AND TO THE NEED FOR AN INTRA-GOVERNMENT STUDY OF UFOs AND TO MOVE FOR PAPERS"

According to London based Aertherius society, a metaphysical advanced research society, they had helped in this debate by supplying the ufo information needed, to one of the Lords who debated the issue also on the 18th January.

The Day the debate occurred, it was given announcement on London Independent Television. NEWS AT TEN:

The above group have also launched a UFO petition to try to twist the government's arm to release any Flying Saucer information not yet released. The suspected cover-ups are said to be invalid, BUT, stories have drifted into CNK, that show the opposite, like a suspected crash of a UFO some years ago in a secluded spot, and the army was the first to arrive and the lid was put on. (just one example).

THE HOUSE OF LORDS DEBATE, plus ITV coverage, from tape recording made on the day went as follows:

ITV NEWSCASTER: "The debate in the House of Lords held today on the enigma of the Unidentified Flying Objects said that they could land tomorrow, and start mass panic. Another Lord said, 'Millions of people throughout history had seen ufos, but the Lords could not answer the question have they got 'flying pickets too' (meaning the lorry strike pickets which was in operation at this time).

The House Of Lord Debate on unidentified Flying Object went as follows: (Extract taken from BBC radio 4)

'In the Lords there was a debate on unidentified flying objects, it was raised by Lord Clancarty, who has written several books on the subject. He said UFO sightings went back as far as ancient Egypt, but they had increased considerably since the end of the war.

Lord Clancarty admitted you can get the odd crank, or hoaxer

but on the whole, witnesses tended to be trained observers like pilots, police officers, coast guards, and even astronauts, all of whom had provided astounding reports of vast numbers of UFOs throughout the world.. He said, parliament should keep a close watch on the situation. He also wanted governments to pool their knowledge,, and then pass their results onto the public.

Lord Clancarty criticised the Americans, soviet, and British government, for playing down the issue of UFOs because they were afraid of causing panic.

He contrasted this 'cover up' with the independent line taken by the French, who had set up special units to study UFOs.

"So the French have been taking it all seriously," said Lord Clancarty to the Lords, "keeping their own people informed." he declared. He went on, "Nobody panicked, and nobody rushed like Lemmings into the sea.

Is it not time, that Her Majesty's government informed OUR people?" he asked, "what it knows about UFOs?"

"The UFOs have been coming in increasing numbers now, for 30 years since the war, Now I think it is about time our people were told the truth."

Lord Clancarty suggested that the Ministry of Defence should give an interview about UFOs -- as his French counterpart had done in 1974. The conservative Peer, Lord Trifgan, who admitted he was not a believer in UFOs thought that the time had not come when we could view the matter with sufficient certainty to justify the expenditure of public money on it.

Lord Kimberley, Liberal, said that in spite of the skeptics, UFO DID EXIST. They had been observed for years, many important people had either seen them, or had evidence that they had been seen, including President Carter, the late President Trueman, as well as Britain's Lord Dowding.

These people could not be said to have been suffering from hallucinations or believe in Fairies.

Lord Oxford, in his maiden speech in the house, said the debate was 'above his head' the question for him was, 'Where did UFOs come from?' He discounted our solar system, and also doubted if they were the result of a secret effort on Earth. But he added that we were on the edge of something that we did not understand, and he supported the suggestion

that an organisation should be set up to look into the question.

Lord Davis of Leek, put, what he called the 64,000 dollar question to the Lords- Did they believe in Angels? Some would answer yes, but HAD they SEEN angels? And yet there was doubt about UFOs which had been seen possibly by millions of people. He put the question another way.....

"If I came off my Welsh mountains and came down the mountain as a little boy of 12 and said I had seen the Virgin Mary, springing out of a rock, some devout religious people would believe me. But if I said I had seen a Flying Saucer, they would not have believed me. What's the difference?"

Lord

The Bishop of Norwich, told Davis, he understood what he was talking about, because he had a little Irish blood in his veins. He was however, glad that the question of UFOs had been raised, and thought it was right to have a cool scientific look at the subject, but he sounded a note of caution...

"I do believe that U.F.O's and the mystery surrounding them, is helping today to build up a climate of credulity and in certain cases even of superstition with the danger of a sort of 'irksand spirituality' almost reacting against the impersonality of our modern civilisation, but not wholly involved in the total christain commitment which is a balanced committment."

Lord Gladwin didn't contest the existence of unidentified flying objects, but whatever their origin, there was certainly no proof that they held beings from another planet.

Lord Kingsnorton was also skeptical but he supported the call for a serious investigation. He reminded the house of the experience of the prophet Ezeikiel....

"He certainly saw something very unfamiliar in the firmament- It certainly could be called a UFO (CNK NOTE: we are not certain if this was the staementm word was garbled)

"It was different from the modern ones, it appears to have been coal-fired, to have been stabilised by giroscopes, and to have been guide by cherabin (these words not clear)..and a model as far as I know has been developed . "

Lord Rankeillour, who spoke next, according the ~~the~~theruis Society report.. " took the trouble to visit the Ministry of Technology before delivering his speech in this debate, used information supplied from the Ministry of Technology to support his argument."

In the House of Lords and continued from the BBC, he said:

He thought the driving power of the UFOs would be a great help to our transport and industry, they apparently flew without wings, at incredible speeds, and could hover silently. He said; "Every scrap of information about them should be collected and the government should set up a bureau."

Lord Gainford reported an actual sighting to the House. At a new year's Eve Party in Scotland he and others had seen a bright white ball with a touch of red followed by a white cone. "It might have been a comet," he acknowledged, but he would like to know for certain.

Lord Hewlett referred to flights of fancy during the debate. He had taken up the issue of UFOs with Jodrell Bank.....

"My Lords, of all the thousands of reports of sightings that have been made, whenever it has been possible for an investigation to have been made, they have been found to be natural phenomena when some instances, I regret to say, pure myth. Over the United Kingdom, Jodrell Bank's radio telescope, the first, and still ^{one} of the most powerful in the world, observed thousands of possible subjects for identification as UFOs. But not a single one, has proved other than natural phenomena."

WINDING UP for the government Lord Strabolgi denied that the government was involved in a cover up of the truth about UFOs, the idea of such a conspiracy, he said, belonged to the world of James Bond. The truth was, in fact, very simple. There were very strange phenomena in the sky, including satellites, debris, etc., re-entering the atmosphere, but there was nothing to suggest that these were alien spacecraft. The motion was withdrawn. That ended the day's proceedings in Parliament.

(Transcribed from the BBC from tape)

And that is how UFOs were discussed in the House of Lords, and we probably have Lord Clancarty, better known as Brinsley le-Poer Trench, to thank for it. Whether some of the recommendations will be put forward, as in France, we must wait and see. If this is tomorrow or the next 10 years only the government will know. What we all want however is a public enquiry. It will be money well spent - not wasted, as earlier suggested. Money is well wasted on many other frivolous things of lesser importance in this country. CNK urges that the suggestions by their Lordships be given immediate top priority-NOW!

LETTER OR TWO from CNK readers.

Dear Edward: Many thanks for your fabulous and fascinating book, Our Weird Universe and your kind inscription on the front page which made me feel very honoured! At the moment, I am supposed to be resting - what a hope with my active brain! Anyway I couldn't let Christmas pass by without remembering my dear friends all over the world, and so I ran off a newsletter. Anyway, dear Edward, I hope to write you more fully in the new year, about the book. Meantime, I wish you and yours a very Happy Xmas and New Year - and may the Force continue to be with you!

With warmest regards, Sincerely
Carol Halford Watkins.

* Carol was one time editor of TOPSIDE, a metaphysical type cum-UFO magazine in the early part of the 1970s.

Dear Ted, Enclosed a few UFO items. Have been ill again last few weeks, but am OK now. All the best for New Year.

Patrick and Joan O'Connell of 4280 68th Ave. North Pinellas Park, Fla. 33565, U.S.A co-produce the NEW ATLANTIAN JOURNAL, which is misleading in name to an extent, since it leads one to believe it caters SOLELY about the research of sunken Atlantis, yet it does cover it and a host of other metaphysical items too. The truth is at last out. But how I wish they wouldn't print the pagan fertility rites symbol smack on the front page (bet they didn't know it was one) IN LARGE DRAWINGS TOO! Will CNK exchange, bby, just try to stop us. This book is a must for everyone, great stuff, where they dig it all up from beats me? You'd be a mug not to subscribe to this one- it's like CNK-PLUS! CNK RECOMMENDS THE NEW ATLANTIAN JOURNAL not at all wasted money-well worth it in its present format. (less that symbol)!... AN INTERNATIONAL MEETING OF PARAPSYCHOLOGY IS TO BE HELD on JUNE 1979 in MILAN, ITALY For further information, if you wish to attend, write in either languages of ENGLISH, FRENCH, SPANISH, ITALIAN, to: SEGRETERIA CONVEGNI "psi"-Via Puggia, 47-1-. Yeang, J.P. of 24 Cantonment Road, Penang, Malaysia, writes, Dear Friend, I enclose predictions by Samat Kumara for 1979. ..you might then want to find out further about the Essene Teachings (The same as the White Brotherhood). The item that will interest you tremendously is the authentic release that the UFOs are real, but they are of an astral nature, unlike our satellites. They will appear as coloured lights only. My article on YOU! THE ALMIGHTY YOU! might interest your readers; it contains no theories nor speculations, being

an outline of the result of my studies. HAPPY & REWARDING NEW YEAR! Yours Sincerely C.H. Yeang. *CNK says: Can't really publish them all in THIS new strange format I have here to commence CNK for 1979. But will add a few in the next month's issue. Isn't it odd how CNK's address reached as far as Malaysia-next thing I'll know is we will get a letter from Antarctica-who knows!... (All letters welcome from whatever part of the world you live in-however please expect a LONG delay in correspondence-even up to 3 years sometimes between letters-hope you all have a TIME machine)+Editor! If possible please correspond in either English or German at present-thank you. Mr. Yeng's YOU! is a very good article and will be reproduced in a forthcoming issue.... (FOOTNOTE: Please do not send in anything more for CNK after June 1979, as it will just not get published, we are already a mountain high with all kinds of data-and once again, many thanks). Exchange magazines may continue to exchange up until end of November 1979, please do not send any more, unless CNK places a valid order (cash) for YOUR magazine, then I can sit and watch you guys out there doing the work!!

U.F.O SIGHTINGS FOR 1978-79

The debate on UFOs by the House of Lords was unprecedented in our time, followed an incredible spate of UFO sightings. As we here in CNK for this issue are totally disorganised until next time, I have hundreds stacked in a cardboard box. The lucky dip will be the one that gets printed after this piece here. In the next issues we will cover anything left unattended, including photos, in this very unusual edition: (not in any order)-

EVENING TELEGRAPH: October 10 1978:

A teenage girl has relived a night of terror-convinced they (her friend too), convinced they were being chased by a UFO, Caroline Muncy (R5) said they were shadowed until she went to a house for help and the 'craft' disappeared. (photo of the girl and sketch next time). Area: Welligborough.

AIRPORT UFO RIDDLE (via Ed8 J.O'Hare Harlow Essex) SUNDAY MIRROR November 26 1978:

A MYSTERIOUS triangular light over London'd Heathrow Airport set off a UFO scare last night. A Passenger said: "It could not have been an aircraft, it was travelling too fast."

UFO SIGHTINGS CONTINUED: (SUNDAY MIRROR 3-12-1978

*I AM an amateur astronomer and was observing that part of the sky at the time the UFO was spotted (Over Heathrow), The most common cause of UFO reports is bright stars and planets-in particular, Venus at its brightest-Ian Ridpath 35 Oakwood Gardens, Seven Kings, Ilford Essex.

* SUNDAY MIRROR 10 - 12 - 1978:

I SEE Amateur astronomer Ian Ridpath claims the UFO or whatever it was-was a bright star. Since the UFO was described as travelling fast and in an erratic manner, his suggestion hardly fits the facts- E. Sears, Portswood, Southamton.

*THE FACT that Mr. Ridpath observed nothing unusual over Heathrow that night is hardly surprising-since he was apparently 24 miles away in Ilford- Stephen Twine, Cowley, Oxford.

*CNK Says: Any more amateur astronomers doing that-please stand up and be counted!

MARCH 19 1978 SUNDAY PEOPLE :-

I SAW 7ft MAN OUT OF SPACE. Mr. WHATEVER-HIS-WAS had arms that grew from his chest. He was 7ft.tall and wore a silver space suit. But that is only the beginning of the mystery... The weird giant walked clean through a 10ft.high security screen-watched by an astonished engineer. "It was too incredible to be true", the 39-year-old engineer, Ken Edwardes, said yesterday at Risley Atomic Energy Research Establishment, at Warrington in Cheshire. When checks were made, police said they took the report seriously, the man was sober and in a state of shock. Ken said: "I picked up a silver object in my car's headlights, it was stooped over and very stiff-legged. It had a head, two arms and two legs, but they seemed to come from the chest and not arms from the shoulders. There were two beams of light for eyes. I still can't believe it. I went back later with the police but there was no sign of a hole or a break!" Police say they are investigating.

JANUARY 2nd 1979 THE SUN

GREAT BALLS OF FIRE START UFO FEVER(NEW ZEALAND and others) HUNDREDS of Jittery people have reported seeing great balls of fire and dazzling objects in the night sky. Weird happenings were reported across the world on NEW YEAR'S EVE.

The Ministry of Defence said last night:

"We have not been invaded, we think its just space debris burning up." CNK interruption: Wait till Skylab falls then!

In Britain, eyewitnesses as far apart as Scotland, Manchester, Newcastle, Sheffield, Norwich, and London, were scared by mysterious objects. Even a schoolboy said he was buzzed by one. IN NEW ZEALAND, a television crew in a plane filmed some objects-including one described as a blazing fireball. (CNK Says: We have formed a weak hypotheses, that some fireballs now could be identified as HYDROGEN gas clouds igniting in small isolated round pockets of air. I saw this mentioned in a schoolboys Chemistry book. i.e. soap bubbles filled with hydrogen and ignited seem to have the same effect as reports of the same I have had-this is well worth looking into, it may be possible for gas clouds in extreme conditions to do this; what the conditions have to be regarding ignition in the atmosphere, I don't know. Anybody want to work on that idea?-editor) Nb. This does seem to be the RATIONAL-logical explanation for some fireballs. ie. Natural phenomena.

The New Zealand UFOs will be covered in issue 21, with photos and full texts. Some astronomers said it was Jupiter, but the text shows it was more that ONE object-unless the astronomers have been drinking again, can't they ever see anything BUT Venus and Jupiter?

In northern Italy a village was Plunged into darkness after a UFO was seen hovering over a hydro-electric power station. It was cut of action for a full 5 minutes.

*Sir Bernard Lovell of Britain's radio telescope had an answer to the sighting, they were, he said, "a meteor breaking up part of the "space rubbish" with which Earth was always being bombarded."

* CNK SAYS: I agree this could well be the case, but what about the UFOs too? However, it would seem irresponsible for the New Zealand Air Force to scramble their jets in hot pursuit of just space junk. That is of course, if their detecting equipment was about 50 years old-which I doubt!(or a private joke to David Proctor a Ufologist of note-"bits and pieces from JOB-STOCKS!") CNK apologises for the bad workmanship and typing errors in this rough quick issue of CNK. A gem in itself! a collectors masterpiece-right? All antiques have some woodworm! SYDNEY australia: EVENING STANDARD via Ed. O'Hare, Harlow: MORE UFO SIGHTINGS 2-1-1979:

More radar and Visual sightings of UFOs over Australia and New Zealand reported, with at least 12 policemen saying they saw bright blue objects on random flight from their homes, over Australia's east coast. (Reuter) CNK says: As Sir Bernard would say, 'probably only more space junk again.' We wonder, or is it pieces of satellites blasted out of space in the assumed space war which is presumed to be going on up there??

THE LAST PAGE

THIS ISSUE OF CNK IS JUST A 'CHAT-SHOW', IT CONTAINS ONLY THE RECENT UFO SITUATIONS AND OTHER ITEMS, ALSO THE DEBATE ON UFOS BROUGHT UP IN THE HOUSE OF LORDS, QUOTED NEARLY VERBATIM INSIDE.

THE NEXT ISSUE WILL BE BACK TO NORMAL, IN OUR BETTER FORMAT, AS USUAL, THIS ISSUE WAS JUST A 'WARMING UP' FOR WHAT IS TO COME.

IF ANY READERS WANT TO KNOW MORE ABOUT UFOS, GO ALONG TO ONE OF THE FOLLOWING LECTURES ON THE SUBJECT HELD IN THE KENSINGTON CENTRAL LIBRARY, CAMPDEN HILL ROAD entrance, LONDON, W, 8 BY THE BRITISH UNIDENTIFIED FLYING OBJECT RESEARCH ASSOCIATION, AND POSSIBLE ALSO CONTACT UK.

LIST OF DATES FOR 1979
